I. Identifying Information:

Name Mark Allen Telephone _____

Address _____

Type of Contact: ☒ Telephone
☐ Person

II. Summary of Contact:

Mark Allen called to inform me of a lead he had come across that he thought was worth pursuing. He said that one DAVIS EUGENE BOSTER, a state department employee had received a letter from Richard Snyder concerning how to handle defectors three days prior to Oswald's visit. Mark said that we could find the references to Boster's dealings with Snyder in C.E. 914 and in Accessories After the Fact, page 331. Mark said that the State Department listing of employees puts Boster in Mexico City as a political officer beginning in September of 1962. Mark thinks that Boster may have been there at the same time as Oswald and would have recognized his name. Mark does not know if Boster would have seen the 10/16 dissemination memo.
